# MANAGEMENT DISCUSSION AND ANALYSIS

## REVIEW OF OPERATIONS

In the past six months of 2008-09 financial year, worldwide economies have been going through a very tough time. The financial tsunami has engulfed the world including Hong Kong. Nonetheless, Hong Kong Health Check and Laboratory Holdings Company Limited (“Hong Kong Health Check” or the “Company”) continues to record steady operating performance in the midst of these turbulences.

For the six months ended 30 September 2008, the Group’s turnover was approximately HK\$50,572,000 (2007: HK\$29,538,000), representing an increase of 71.2% as compared with the corresponding period of last year. The increase in turnover was mainly attributable to the steadily growing of the core health check and medical diagnosis and imaging business. As a result of the substantial loss with reference to the valuation of the convertible bonds issued by Core Healthcare Investment Holdings Limited (“Core Healthcare”) (Stock Code: 8250), a subsidiary of the Company, and the holding of such convertible bonds by a jointly-controlled entity of the Company, the Group recorded a loss attributable to the equity holders of the Group of approximately HK\$154,582,000 (2007: Profit of approximately HK\$46,861,000).

The Board does not recommend the payment of any dividend for the six months ended 30 September 2008 (2007: Nil).

### **Rapid Expansion of Clientele**

During the period under review, the Group’s revenue enjoyed steady growth as driven by the increasing branding effect and economies of scale. This is the result of the Group’s commitment to providing high quality diagnosis services to an ever enlarging pool of customers in Hong Kong. The Group has now become a leading player in the health check and medical diagnosis industry. The business recorded a turnover of approximately HK\$50,572,000 compared with HK\$29,538,000 in the corresponding period of last year.

The health consciousness among the public in Hong Kong is increasing, and this highlights the importance of health check services in the community. Given the increasing demand for high quality, comprehensive health check and medical diagnosis and imaging services in the community, the Group has been putting much effort in building its brand image through a series of marketing and advertising campaigns. The provisions of high quality services, together with a reputable brand name, have attracted customers from all sectors, including the government and non-referral walk-in customers. The Group's clientele has been enlarging continuously since its inception.

The Group has also expanded its facilities and service scope to meet the growing needs of our customers. During the period under review, Hong Kong Health Check has established up to nine diagnosis centres, providing high quality services to citizens in densely populated districts such as Jordon, Kwun Tong, Causeway Bay, Shatin and Tuen Mun. In addition, the Group has successfully executed a strategic plan to increase its penetration, providing unrivalled services to customers. That helped to generate steady revenue growth. The Group is dedicated to improving its operating efficiency and integrating its services so as to enhance the economies of scale.

In the 2008/09 Policy Address, the Chief Executive reiterated the importance of healthcare reform. The public-private interface initiatives are vital in outsourcing medical services provided by public hospitals to private medical institutions. The advanced facilities and the professional team of the Group complement well the medical services of local hospitals, individual doctors or medical groups and other healthcare providers.

### **Solid Business Development in China with Promising Outlook**

Despite the weakening global economy, China's healthcare industry is experiencing rapid changes. This provides excellent business opportunities for our group than any other markets.

Building on its strength and experience in the medical diagnostic services industry, the Group has been expanding its presence in China this year. The first-of-its-kind health check centre – "Zhongshanyi Town Health Health Check Centre" located in the Tianhe District in Guangzhou, is currently under construction and making good progress. The Centre will commence operation in 2009. This marks a significant milestone for the Group's development in China. The facility is equipped with cutting-edge medical diagnosis facilities and technology and will strive to become one of the largest health check and medical diagnostic centers in Guangzhou.

## PROSPECT

### **Establish Leading Role in the Local Community**

In the past three years, with our professional team and state-of-the-art technology, the Group has been providing comprehensive quality health check and medical diagnosis and imaging services to its customers. The brand image continues to be well received by the market. We are now at the leading position in the fast-growing health check and medical diagnosis market.

The financial tsunami has doubtlessly dealt a severe blow to Hong Kong's economy. The business environments have turned from bad to worse. It is hoped that the healthcare industry, which involves the daily necessity of general population and thus is regarded as defensive at times of economic turmoil, will be less affected. The Group will strive to enhance its operating efficiency so as to minimize the external economic impact.

Despite the adverse economic environment, Hong Kong Health Check will continue to quicken its expansion pace. The Group plans to establish five to ten satellite health check centers so as to perpetuate its leading position and expand its coverage in Hong Kong. The Group will also strive to further integrate the Group's services and operation, so as to improve its operational efficiency and boost its competitiveness.

### **Introduce Revolutionary Health Check Concept in China**

According to the China Market Intelligence Centre, there are approximately 5,000 health check centers in China. Nearly 90% of health check services are provided by hospitals.
